

Aviation Law Fundamentals

e-learning course (3 hours of study)

This course provides an overview on aviation law by explaining why there is a need of having it and which are the main documents on which this was built. You will explore the nine freedoms of air, Warsaw System and Chicago Convention. You will be able to distinguish between safety, security, measures to tackle each one and also expand your knowledge on liability in international law.

Objectives

Upon completion of this course you will be able to:

Explain the need for international aviation law

List the major provisions of the Warsaw System

State the purpose of the Chicago Convention

Describe the nine Freedoms of the Air

Describe the purpose and the organizational structure of ICAO

Target audience

- Airline, airport, CAA and ANS Provider employees, line and middle management
